

Thyroid, Channels and Collaterals, Pulse of Heart and Brain, Blood Lipids, Sperm, Gynecology, Breast, Menstrual Cycle and Element of Human. Depending if you are a male or female.

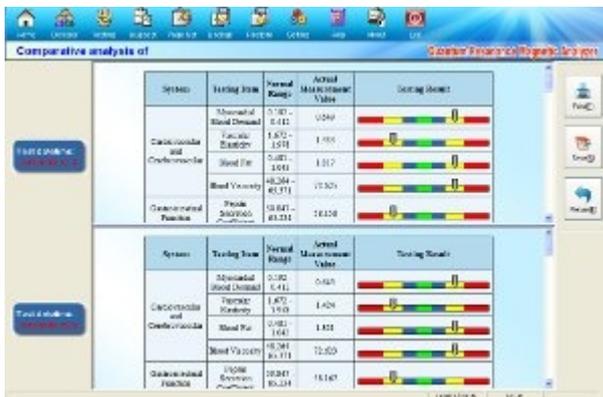

The immense amount of detailed information makes for a good long read. The reports now boast a much easier to read bar graph with the green area in the middle indicating what to aim for to bring your body back into balance.

One of the new reports that caught my eye is the Channels and Collaterals, more commonly known as the Meridian system.

Those familiar with Acupuncture, TCM or SuJok, will be familiar with the terms and from my work with 'Acupuncture without Needles', stimulating these channels with the Denas devices could be another way to bring about balance.

Another handy feature is the ability to compare results from two reports.

In my private practice there is only so much information you can absorb during a session and over the years I have discovered the best reports to initially work through. This is available to you for Free in my Practitioners Guide when you purchase your new Bio Analysis system. As an added bonus, you also receive lifetime support by phone, email or skype.

Impressive results are achieved when we realise we are living with sub clinical health conditions and putting up with poor health that stems from depleted minerals and vitamins. These symptoms are quickly alleviated with the use of supplements at safe therapeutic levels following guidelines as advised by Orthomolecular Medicine. With nutrition you can expect to feel the results in around three weeks.

So if you are feeling out of sorts or under par then why not treat yourself to an **Express Health Check** and discover what's really going on... on the inside...
