

Article 2016 in WDDTY on SCENAR

<https://www.wddty.com/magazine/2016/august/space-age-healing-in-your-pocket.html>

I firmly believe my use of this technology has made my recovery possible. Loosing the use of my right arm and hand had a life changing effect on me, recovery was not straight forward with further complications in my back making it very difficult to even walk. Twelve years on, I have the use of my hand and arm back and can now manage and enjoy pub walks from 3 to 5 miles.

### **The technology:**

Very early on in the development of what has become known as SCENAR technology, the specialists at Denas figured out how to stimulate the body to restart the self recovery process to repair itself without having to use complex, expensive feedback circuits.

At the technical level, they know the unique shape of the waveform, the optimum frequencies and how the body responds. Denas then mimic what the SCENAR devices do, achieving similar results in a much more affordable way.

### **Ease of use:**

Concentrating on ease of use they have also produced a range of devices and accessories making Acupuncture without Needles possible to 'just treat' at home.

### **Home therapy kits:**

The Home Therapy kits top of the range DENAS PCM 3 has a range of frequencies built in so you can 'just treat' at just £613 that includes delivery to the UK.

### **Shungite attachments:**

And there is more as we also supply Shungite attachments.

### **Free Skype session:**

With each order we include a Free 20mins Skype session and lifetime support by phone, email or skype.

### **Ordering:**

So, for you to restart the self recovery process with Acupuncture without Needles, call Kevin today on 01202 640264 and ask for your Home Therapy Kit.
