

Depending where you are in your health cycle, before we start working towards your health goals or on the parasite detection and cleanse protocol, we recommend that the first four contact sessions are used to strengthen your bodies main cleansing systems, the Kidneys, Liver and Lymph as well as having your DNA in the Remote for the duration of each ten week program following a system detox and cleanse protocol.

Sessions from £20		
Remote detox / cleanse £2.40pw		
10 weeks	20 weeks	30 weeks
£24	£48	£72
Monthly maintenance sessions from £24.80		
One contact session a month with two weeks Remote		
Remote program £18pw		
One generator with remote		
10 weeks	20 weeks	30 weeks
£180	£260	£540

A discount is available when 10 sessions are booked and paid for in advance.

1 Free Session and 2 weeks Free Remote
Pro rata refund when ordering equipment.

Session Record for:

First four sessions for strengthening		
Appointment times & dates		
1	2	3
DNA Sample	DNA Sample	
4		
Fresh DNA samples for Scan & Zap		
5	6	
7	8	9
10 Free Scan & Zap		

Scan and ZAP Sessions £35

RIFE Health Club

Membership gives you more choices and savings
 Session Discounts Strengthening Protocols

 Flexible Stop / Start Monthly Maintenance

Annual Memberships £35	Six month Memberships £20
Mon-Fri 10am to 4pm £20	Mon-Fri 10am to 12pm £20
Wed 4pm to 8pm £25	
Saturday morning £30	Session price from £20
10am to 12pm	Remote from £2.40pw

For experimenting on your own health needs at home, we are making these systems available to you that are probably the best computer controlled modular RIFE system in the world, with the mini rig offering the best value with lifetime support.

Rife mini rig	£ 813 (Best value)
Starter kit	£ 360
Esential Kit	£ 470
Plasma Tube with Amp	£ 1,550
Colloidal Silver kit	£ 48
Accu Zone Pads	£ 120

Prices include delivery to the UK. These are imported, there may be additional import duty and customs charges to pay. Prices may vary.

Pulsed Electromagnetic Field

Working with experimental technology research known as Rife machines.

An investment into the best computer controlled modular RIFE system in the world.

Treatments help to normalise the bio chemical and bio electrical processes both within and outside your bodies cells, accelerating the healing processes.

Wherever you are in your health cycle we recommend you always start with cleanse, detox and organ support protocols for your first four sessions.

In the 1930's Dr Royal Rife, a genius of his time, proved that pathogens could be destroyed without damaging their host by using specific frequencies. This work was built on by Dr Hulda Clark and Dr Bob Beck.

Treatments for Diseases

Dr. Rife and Dr. Clark both discovered that the Mortal Oscillatory Rates (MORs) of almost all pathogens and parasites lie between 76,000Hz and 880,000Hz.

Moulds and mycotoxins	75 - 215KHz	
Bacteria and most viruses	275 - 450KHz	
Protozoa, roundworm, and flatworm	325 - 480KHz	
Warts	400 - 475KHz	
Tapeworms	425 - 515KHz	
Mites	675 - 880KHz	

By scanning a selected frequency range with the bio feedback scanner we are able to find the ideal frequencies of pathogens in your body, that we then zap, personalising treatments for **Scan and Zap**.

Then we select the next frequency range and repeat the process.

The scanner attaches to either your middle finger on your least dominant hand or to your earlobe.

An international, multidisciplinary team, over the last several years have succeeded in making a computer controlled modular Rife machine that offers a bio feedback scanner and three modes of frequency transmission, Plasma, Remote and Contact.

The Plasma tube transmits without wasting energy on a carrier wave.

The Remote is a Scalar wave generator using DNA samples.

Contact is with hand held rods or pads held to your body for greater convenience.

The Remote is a scalar wave generator and your DNA acts like an antenna that allows for processes to be run one at a time in sequence or at the same time in parallel on separate generators.

When time is not on your side, the mini rig has four generators increasing the number of possible treatment protocols to four that can be run in parallel.
